MICHELL JURY, STANDING  
6 TO 6, IS DISCHARGED

CANNOT AGREE  
AS TO FACTS  
Lawyer Is Accused of  
Assault Upon a  
Pretty Girl.

At 2:30 this afternoon the jury in the trial of Attorney David Mitchell, unable to agree, was discharged. They stood 6 for acquittal and 6 for conviction.

Attorney David Mitchell will probably have to face a third jury for the alleged attack on Evelyn Walker, for the twelve jurors who have been out since 11:20 a.m. last night failed up to 1:30 this afternoon, to agree on a verdict, and from the statements made this morning

DAVID MITCHELL

In court it is believed they will never agree among themselves whether Mitchell is guilty or innocent of the charge on which he was formerly convicted.

Judge A. L. Fitch took up the arguments for Mitchell last night at 8 o'clock after Judge E. M. Gibson had finished in the afternoon. During his argument Gibson called Evelyn Walker "the beautiful Cleopatra" and compared the accused lawyer as "her Mark Anthony."

## MASKED ROBBERS HOLD UP AND RIFLE EXPRESS

OMAHA, Neb., Sept. 6.—The Rocky Mountain express on the Rock Island road was raided this morning just before daylight near Murdock, Neb., by three masked men. The robbers went through their pocketbooks and purses, covered the train crew with revolvers and escaped by leaping from the train.

Railroad detectives and sheriff's posse are in pursuit, but the robbers have served hours start on the officers.

## SPEEDING FIRE ENGINE AND CAR CRASH HEAD-ON

(SPECIAL TO THE TRIBUNE.) SAN FRANCISCO, Sept. 6.—While responding to a fire at Van Ness and Eddy street today, engine No. 3 had a head-on collision with a Sutter street car at the intersection of Polk street.

The engine was going south on Polk street, changing the bell, when, as it approached the intersection of Sutter street, car 1554, east-bound, failed to stop at the crossing. The driver of the engine made every effort to stop his horses, and succeeded in slowing down considerably. At the last moment the motorman of the car also put on his brake and when the two came together the pole of the engine smashed into the front gate of the car, hurling it from its place and injuring one of the horses.

SLAYS HIS  
WIFE AND  
HIMSELF  
Drags Sleeping Spouse  
From Her Bed and  
Murders Her.

PITTSBURG, Sept. 6.—Peter Boyle, a gardener, early today forced his way into a rooming house in this city where his wife was staying, and dragging her from bed, where she was sleeping with her seven-year-old son, fired a bullet in her head and then killed himself by putting a bullet in his right temple. Mrs. Boyle died some hours later. Boyle is said to have been out of work, and was drinking heavily.

RACE WAR  
BREAKS OUT  
IN INDIANA  
Negroes and Police  
Battle and Bluecoat  
Beaten Senseless.

SHELBYVILLE, Ind., Sept. 6.—Shelbyville is in the throes of another race war. Trouble was started when five negroes attacked Policeman Daniel Starkey and beat him into insensibility. Five shots were fired at the fleeing negroes, but none, so far as known, took effect. A posse of 100 was quickly formed and scoured the city. Mayor Swain and a party of policemen captured two of the colored men, Steve Marshall and Robert Marshall, near the outskirts of the city. They were spirited to jail, where they are closely guarded. The other negroes have not been arrested. The police kept the negroes on the move all Wednesday night. They were not permitted to congregate on street corners. Last night the streets were cleared of negroes.

HUNT SUSPECT.

For several nights past they had noticed a man acting suspiciously in the neighborhood, but as they had no case against him, they had let him alone.

When they heard of the robbery, they

suspected the man and started out to hunt for him.

All the lodging houses in the vicinity

were searched as well as the saloons

known to be frequented by desperate

characters, but no trace of the burglar

could be found and the policemen were

about to transfer their search to other

fields when they caught sight of their

man hiding in a vacant lot. He saw

them almost at the same moment and

took to his heels down Tehama street,

carrying a big bundle in his arms.

FIRE AT DESPERADO.

The officers followed, calling to him to

stop and firing several shots into the air.

Just as he reached the corner of

Third street they overtook him, and af-

ter a fight during which they were ob-

liged to beat him into submission, they

succeeded in arresting the burglar.

A box containing ten pairs of shoes,

which he had been carrying, was recov-

ered and a package containing another

pair was found on his person. The police

believe the man is wanted for several

other crimes committed in the neigh-

borhood.

THE WEATHER REPORT.

SAN FRANCISCO, Sept. 6.—Fair tonight

northwest wind.

leys: Fair; warmer tonight and Sat-

urday; light north wind.

TONS OF EARTH AND ROCK  
CRASH DOWN ON LABORERS

Victims Are Rescued From Fearful  
Death by Heroic Efforts of  
Companions.

(SPECIAL TO THE TRIBUNE.)  
POINT RICHMOND, Sept. 6.—Buried under a huge landslide which had been precipitated by a blast, three men narrowly escaped death this morning. Covered by tons of rocks and other debris, they owe their miraculous escape solely to the heroic efforts of fellow-laborers, who dug them out.

The injured men are E. Steele, whose left leg was broken; T. Duggan and T. O'Brien, both of whom were badly bruised. They were taken to the Roosevelt Hospital in Berkeley.

The accident happened at Healy and Tibbles stone quarry. When the blast was set off a huge landslide occurred, crashing down upon the laborers.

11 KILLED AND 7 HURT  
IN CRASH OF TRAINS

Flyer Dashes Into Freight on Open  
Switch and Hurls Victims  
to Death.

CHICAGO, Sept. 6.—According to information received at the offices of the Chicago, Rock Island & Pacific Railroad in this city, 11 persons were killed and seven injured in a wreck which occurred today at Norris, Iowa. Only meager details have been received, but it is believed that the majority of the people injured were passengers in the smoking cars. The wrecked train was passenger No. 31. While passing through

Norris in some way not yet known, the locomotive struck a portion of a freight train standing near a switch. The engine of the passenger train was thrown from the rails and overturned, telescoping the smoker which was immediately behind it. Norris is a small station with no telegraph facilities and the names of the injured are not known except that Baggage man Meyers is said to be missing.

GRAND JURY PREPARES  
TO INDICT E. J. ZIMMER

(SPECIAL TO THE TRIBUNE.)  
SAN FRANCISCO, Sept. 6.—Taking

Vice-President E. J. Zimmer of the telephone company at his word that if he testified in the Glass case he feared he would incriminate himself, the grand jury is today considering his indictment on the charge of bribery as an accomplice of Louis Glass.

Mr. Zimmer has already testified before the grand jury, but escaped indictment, the burden falling on Glass and Halsey. His attitude in refusing to repeat his testimony against Mr. Glass on the witness

stand is responsible for the present proceeding of the grand jury.

VOLUME OF EVIDENCE.

Apparently the volume of the evidence against Zimmer now being considered by the Grand Jury is in relation to his own acknowledgment of guilt in Judge Lawlor's case.

Platt Elderkin, the stenographer, and Edward Walsh, the clerk of Lawlor's court, were subpoenaed. They testified as to Zimmer's refusal to testify in court and his reason as given on the last occasion. Elderkin produced the transcript.

JUDGE DUNNE DECIDES TO  
DISCHARGE HALSEY JURY

(SPECIAL TO THE TRIBUNE.)  
SAN FRANCISCO, Sept. 6.—The twelve

men selected to try Theo. V. Halsey this morning that they would be discharged next Friday. In the meantime they were instructed to continue, as they are supposed to have done for a month past, to refrain from talking about the case with anyone or reading the newspapers in relation to the graft cases.

The case of Abraham Ruef was also called and was submitted to the court and a motion for dismissal with the stipulation that the amended minutes of Judge Graham's court should be admitted.

CHARGE FULL OF DUALITY  
CRIES CALHOUN'S ATTORNEY

(SPECIAL TO THE TRIBUNE.)  
SAN FRANCISCO, Sept. 6.—Argument

on the demurrer to Judge Dunne's decision upholding the grand jury indictment and denying the motions for dismissal and stay of proceedings was heard this morning. The filing of the demurrer occupied some time as each of the ten defendants filed separate instruments on each of the indictments against him.

Clerk Walsh has handed nearly one hundred documents. Attorney A. A. Moore, representing Patrick Calhoun and the United Railroads, defendants, opened the argument. Attorney Barrett agreed with the claim of his clients, Drum, de Sola and McLean, without argument.

Coogan said he could allow the case of Glore to rest on the other argument.

Attorney Moore offered the objection

to the indictment that they did not specify what power the Board of Supervisors had to grant such a franchise as stated, or that they did grant the franchise in fulfillment of alleged bribes. He argued that the indictments charged different offenses and do not offer them on different counts.

"The indictment," said Attorney Moore, "charges that the defendant gave and offered a bribe. Now, the bribe has been tendered to a man, and he has accepted it, how is it to be charged that he is guilty thereof?"

He is guilty thereof, which is a separate offense punishable by the same penalty, if the indictment means to allege but two days ago to the effect that unless the defendant was relieved entirely of the "silent treatment" he would dishonorably dis-

charge the entire class.

A cadet, the young man around whom the trouble centers, is a plebe, and it is stated, received the "silent treatment," not only from his own class, but from the cadets in the other classes because of a complaint he is alleged to have made when he was mildly hazed by a fellow classmate.

The cadets, it is understood, have determined to remain firm in their attitude

THREATENS TO DISCHARGE  
WHOLE WEST POINT CLASS

NEW YORK, Sept. 6.—The "Silent treatment" given a plebe at West Point, it is stated in dispatches received here,

has resulted in a clash between the plebe class and the commandant at the military academy. Col. Robert Lee Howze, which threatens to deprive the supply of the United States Army officers four years hence, for Col. Howze issued an order

two days ago to the effect that unless the cadet was relieved entirely of the "silent treatment" he would dishonorably dis-

## LEAVES ALL TO SWEETHEART

Aged Negress and Cook Writes to Pastor While on Her Death Bed at Fruitvale.

The late Bertha Green, the aged negroes cook of the fashionable J. H. Spring home in Upper Fruitvale, who died on July 8 last, tells in her will, which was filed for probate yesterday afternoon in the Superior Court, of a love affair that was pending between herself and Rev. W. W. Mathews, the negro pastor of the African Methodist Episcopal Church in East Oakland. She says that it is left to her minister's sweethearts except a dollar to her brother and sister in Oakland, and her parson has written to the War a lengthy defense of his actions, his text being recent criticism of himself by a woman writer.

Notwithstanding he was mobbed by intelligent citizens and the manifest desire to treat him roughly again should he return from New York to Monroe, Earle told the village president that if he could get a chance seriously to discuss with the villagers what he has done, he could convince them of the righteousness of his position.

The village president advised the artist not to try to get the people's ears.

Earle, who came to New York yesterday in connection with making a money settlement on his wife, did not return to Monroe last night but remained in town with relatives.

It is reported that the young woman to whom Earle hopes to be married after divorce from Mrs. Earle is now in the White Mountains. It appears that she has a home in Bethlehem, New Hampshire.

Frederick R. Conder, Jr., one of the firm of lawyers who originally represented the artist in his international law, thinks that Mrs. Earle will find her way beset with many difficulties when the case comes up in the French courts. The laws in France governing divorce are very severe, he says.

## EARLE WRITES IN DEFENSE

## UNION MEN AFTER LANGDON

Artist Who Was Mobbed Declares He Has Good Cause to Desert Wife.

NEW YORK, Sept. 6.—Ferdinand F. Earle, the artist who has set his fellow townsmen at Monroe, and other persons all agog by shipping his young wife and little son Harold off to Europe, so that he may obtain the freedom he needs to marry another, has written to the War a lengthy defense of his actions, his text being recent criticism of himself by a woman writer.

Notwithstanding he was mobbed by intelligent citizens and the manifest desire to treat him roughly again should he return from New York to Monroe, Earle told the village president that if he could get a chance seriously to discuss with the villagers what he has done, he could convince them of the righteousness of his position.

The village president advised the artist not to try to get the people's ears.

## ROMANCE AND PRISON RECORD

Portland Magnate Accuses Doctor at Los Angeles of Attempt at Extortion.

LOS ANGELES, Sept. 6.—Dr. J. B. Owens, a well-known practitioner of this city was arrested yesterday, charged with attempted extortion through the medium of letters. The complainant is J. Whyte Evans, organizer and president of the Guaranty Realty Company, which had a profitable existence; also president of the United Railway Company of Portland, Or.

The story unfolded by the epistles constitute a history (whether true or not is another question) of intrigues, treachery, wherein a woman figures and also pretend to shed light upon how a certain bank robber escaped to Mexico. The core of it all is that the man who has dazed Los Angeles, San Francisco and the country, only with his ability as a manipulator and his extravagances, is an ex-convict who once answered to the number 12500 in San Quentin prison.

The woman whose name occurs frequently in the Owens' letters and who, in a measure, is involved in the general cause, is Mrs. Minna Hance Evans, wife of the complaining witness and daughter of Captain C. H. Hance, city treasurer of Los Angeles.

Mrs. Evans used to be Dr. Owens' wife and this circumstance is one of the chief ones that serve to make the story both complex and sensational.

**DOCTOR ACCUSED BY EVANS.**  
Harken to Dr. Evans: "I had been paying the fiddler and dancing long enough," he said. "I gave this fellow Owens \$2000 in cash in the last three years and every cent of it was extorted. He had a sword hanging over me—my poison sentence—and he made me sweat blood. I never felt so happy in my life as I do now that I have done this thing."

Say Owens again: "I cannot refrain from commenting only in private way upon your past and sincerely hope the refreshments in your memory on a few of your misdeeds may prove an impetus to make a better man of you in the future."

With this polite beginning, the doctor gets down to the kernel and asks Evans for an immediate settlement of claims which aggregate nearly \$7000. But very soon one reads about Evans having plotted a fugitive from justice through Mexico for a consideration.

The fugitive referred to was Harry J. Fleischman, once cashier of the Farmers & Merchants' Bank, who absconded with \$100,000 of that institution's money. The manner of his escape, so long a mystery, is now explained, says Dr. Owens. He says he had it from Evans that he helped Fleischman into Mexico and received for the service \$6000; also that Fleischman intrusted \$10,000 to his keeping to be used for the benefit of the "beauty doctor" of Los Angeles, with whom the bank cashier was infatuated. This money, the doctor says, was largely appropriated by Evans for his own purposes.

The strangest single expression in either of the letters, however, is that where Owens referred to Evans' trip into Mexico and the "purchase" price of his wife. That meant Mrs. Owens, now Mrs. Evans. The doctor explains that as follows:

**MONEY WON, WIFE IS CHARGED.**  
My wife likes fine clothes and was an easy victim to wealth. Evans made his stake in Mexico and prevailed upon her to get a divorce from me. Then they lived together. They cannot furnish any record of a ceremony."

If you had taken two of Carter's Little Liver Pills before retiring you would not have had that coated tongue or bad taste in the mouth this morning. Keep a vial with you for occasional use.

**ACCUSED OF HOLD-UP; TELLS TWO STORIES**

Justice of the Peace Franks at San Leandro yesterday heard the preliminary examination of George Mello, alias Geo. Miller, who with John Garvera, is accused of holding up and robbing M. S. Maura, a Southern Pacific clerk, at San Leandro, \$70, on the night of August 18. In view of the contradictory evidence, the justice reserved his decision until after next Thursday when Garvera comes up for hearing. He does not know whether he will hold one or both men over to the Superior Court.

Mello at first said he never saw Maura and denied being in company with Garvera. He has since then admitted seeing the railway clerk before and told the officers a story of how he and Maura were robbed by Garvera. According to Officer Feahy, who arrested the pair, they led Maura off to a dark place and pointing a pistol at his face commanded him to surrender his money, which he did.

## Incidents of our Fall Opening

Have you yet accepted our invitation to attend our Fall opening? If not there is a treat in store for you.

Yesterday and today our aisles have been thronged with critical women and as we passed among the crowd we were delighted with the remarks heard on all sides.

The fifty-seventh birthday of California finds the east bay cities a busy thriving community far beyond all dreams of the Argonauts. No further proof of this is required than an afternoon walk through our store—every counter busily catering to the seasonable wants of expectant shoppers.

### POPULAR STYLES IN FALL TAILORED SUITS

Individuality, tone and quality are the chief cardinal virtues of each suit and coat in the Fall display.

**Walking Suit, \$22.50** **Military Suit \$27.50**

**DEATH COMES TO PROMINENT COLORADAN**  
TRINIDAD, Sept. 5.—Michael Eichorn, one of the most unpalatable and popular men of Southern Colorado, died last night after a short illness. At the age of 74, he was born in Vernon, Indiana, and was graduated from the University of Denver, being the last survivor of his class. He served as a surgeon in the Confederate army. Coming to Colorado in 1865, he became one of the three white men to settle in Trinidad. He founded the Pueblo Chieftain and the Trinidad Advertiser, and had held many public offices.

**GAS ENGINE CO.'S MORTGAGE RECORDED**  
A mortgage for \$200,000 was placed on record yesterday afternoon by the Union Gas Engine Company for their properties at Canal and Franklin streets in East Oakland. The mortgage is placed with the Merchants' Trust Company of San Francisco in the form of 200 bonds worth \$1000 each for ten years at 6 per cent. The bonds are signed by W. J. Casey, president of the gas engine company and W. L. Corson, its vice-president.

## BATTLE OF WOMEN OVER DRESS GOES TO COURT

**\$10 Garment Over Which Sisters-in-Law Dispute Given to One Who Had Been Wearing It.**

Declaring that her sister-in-law, Mrs. Phoebe Baumgarten, had taken her black broadcloth dress while she was away on a vacation, and refused to return it to her, Mrs. Lillie Donnergan of 813 Market street, swore out a search warrant yesterday to recover her property.

Detective Flynn served the search warrant on Mrs. Baumgarten at 813 Market street and secured a dress which tallied with the description given by Mrs. Don-

negan. Judge Frank heard the testimony in the case today.

### SAYS SHE BOUGHT DRESS.

In her own behalf, Mrs. Baumgarten testified that she had purchased the dress from her sister-in-law, giving her in payment a ten dollar bill. She declared that she had been in the habit of wearing the dress constantly for the past three months and that she kept it in her own wardrobe.

Mrs. Donnergan acknowledged that she had granted Mrs. Baumgarten permission to wear the dress whenever she desired to do so, but she emphatically denied that she had ever sold the dress and asserted that every time her brother's wife used it she returned it to the room.

After considering the evidence, the court awarded the dress to Mrs. Baumgarten upon the ground that her almost constant use of the garment had given her a proprietary interest in it which he could not overlook.

### FAMILY TROUBLE.

A preliminary feature of the case was the attempt made by J. F. Baumgarten, who is the proprietor of a second-hand store on Broadway, to secure a warrant for the arrest of his wife's sister, Mrs. Sullivan, on the charge of disturbing the peace. Baumgarten declared that his wife had been induced to sue him for a divorce and that her sister was assisting her to move out of the house against his will. Prosecuting Attorney Decoto refused to issue the warrant on the ground that the alleged offense did not constitute a misdemeanor.

NEW YORK Sept. 6.—Frank A. Vesuvius. He declared there could be no eruption at this time, however, as the volcano is dead, and the crater and the clouds of dust arising therefrom resembled a new eruption. "So far as Vesuvius is concerned," he said, "let me repeat that there is no danger of a serious outbreak for some time to come."

Mrs. Henry Melvin and her mother, Mrs. S. Bradford Morse, have returned from Brookdale after several weeks visiting in their pretty rustic cottage. Mrs. Melvin's health has greatly improved and although the family is greatly joyed over her condition, it will be some months before she will be able to receive her friends or take part as of yore in social activity. Her many friends will be delighted to know that the terrible accident through which she passed eleven months ago has left no marks upon her. With rest and quietness her physicians feel assured that she will ultimately have her normal condition.

## AVOID STRIKE IN LOUISVILLE

Street Car Officials Promise Not to Discriminate Against Union Men.

Louisville, Ky., Sept. 6.—The threatened strike of the street railway employees which was believed to be imminent last night has been averted and the cars are running as usual. Mayor Birmingham secured the promise of the representatives of the company last night to give the union men their assurance that no discrimination would be made against them. Mayor Birmingham

later attended a meeting where the question of a strike was being voted upon. A resolution embodying the plan for the settlement of the strike was put before the men, and it was immediately adopted. The mooted question in relation to the discharged men, which has been the bone of contention, is expected to be settled with the Mayor's assistance.

## Location of Powder Works.

Two powder works explosions have occurred in Contra Costa county within less than two weeks. The first happened at Giant a week ago last Saturday; the other took place yesterday at Pinole. Both explosions were accompanied with fatal results and the destruction of property. Much of the latter was situated remotely from the scenes of the explosions. The effects of one of the explosions were felt in most of the cities around the bay.

Explosions in the powder works strung along the railroad tracks skirting the eastern shore of San Pablo bay are becoming so numerous that they constitute a menace to railroad travel. Up to the present time nothing serious has happened to tracks or trains. Trains have escaped simply because none has happened to pass at the time of an explosion. The concussion from any one of these powder explosions is certainly strong enough to blow any train off the tracks which run adjacent to each one of these works. When the passing of a train and a powder works explosion happen coincidentally there is sure to be trouble more or less serious.

Should any powder works—magazine or manufactory—be allowed to locate adjacent to any main trunk railroad over which passenger trains are operated—is a question which these frequent explosions make pertinent. They are no longer tolerated within or contiguous to populated settlements or municipalities. Most of the powder companies operating in this State had their works originally located in San Francisco. They were forced, however, over twenty-five years ago, to move out. One of them moved near Santa Cruz; the others located in Contra Costa county, north of the Alameda county line. Each one has been the scene of a destructive explosion. Nearly every one has been accompanied with casualties, and the mortality in some cases has been heavy. It seems only reasonable, therefore, that all powder works should be shifted from main trunk railroads, as well as from the neighborhood of populous centers, in order to remove the peril to passenger travel. They can be easily by spur tracks at points remote from the trunk lines.

The attack of the sugar trust organ on Vice-President Fairbanks was a gross abuse of courtesy. The Vice-President is an honored citizen and a high official of the republic, and as such is entitled to decent treatment. He was a visitor, and hence sacred from insult under the laws of hospitality. THE TRIBUNE does not endorse the Presidential aspirations of Mr. Fairbanks, believing that Secretary Taft is the logical successor to President Roosevelt, but it nevertheless regrets that so eminent a man as the Vice-President could not visit California without being subjected to coarse abuse. Of course a man in the limelight of public life, as Mr. Fairbanks is, cannot be held immune from criticism and opposition, but there is time and place for everything. It was a gross breach of the laws of hospitality to make an acrid personal attack on him while he was the guest of the city. Why was it done? We never heard of him doing anything to hurt the sugar trust.

## Market for a Despised Fish.

Stockton is making the somewhat surprising development of becoming an exporter of fish to various points in the South and in the Middle West as far east as Chicago. Heavy shipments of salmon and catfish taken from the San Joaquin river have already been made. There is likewise a growing demand for striped bass.

The most surprising feature of this new development is that relating to the commercial utility of catfish, for which, it appears, there is a big demand in the cities of the Middle States, where fancy prices are being paid. The catfish was imported by the late B. B. Redding in the early days of the California Fish Commission for the purpose of stocking the waters of the San Joaquin river, which are too warm for the propagation of salmon, and thus increasing the supply of food fishes. It adapted itself readily to its new home and multiplied rapidly. But it has never attained any degree of popularity in this State as a food fish, and, at one time, manifested such a voracious disposition that it looked as if it would clean out of the brackish bay, and rivers all other kinds of food fishes. It was the only one of all the food fishes that Commissioner Redding was responsible for transplanting in California waters whose introduction he sincerely regretted making. Plans were considered by him for exterminating both it and carp, but they had to be abandoned lest the remedy should prove worse than the evil.

It is now as gratifying as it is surprising to learn that the despised catfish has actually become a valuable article of commerce and has attained a popularity in the Middle States which it can never attain here, as long as the sea and the bays and the rivers supply us abundantly with infinitely superior food fishes. Fortunately, the fear which Redding entertained that the catfish would become an intolerable nuisance by preying on more valuable food fishes than itself, has proved groundless; and, now that a profitable market has been found outside of the State its propagation can be kept under reasonable control, and a new resource has been added through it to those which the State otherwise possesses.

Kicking has begun against the proposed diversion of Owens river into the Los Angeles valley, ostensibly to supply Los Angeles with water for domestic and municipal purposes. The objectors charge that the real object of the proposed diversion is to develop a power plant and for the reclamation and irrigation of large areas of semi-arid outside lands in Los Angeles valley held in private ownership in order to further the interests of a band of land speculators. They charge also that this is to be done at the sacrifice of the interests of Owens valley landowners who claim first rights to the water. The United States reclamation engineers have become involved in the scheme. The opponents to the proposed diversion are making ugly charges against them which promises to develop into a scandal affecting the entire reclamation bureau. Los Angeles recently voted in favor of a \$22,500,000 bond issue for the construction of the diversion works.

The foolciller has not done thorough work in San Joaquin county. This is quite evident when it is understood that several of its farmers have foolishly entered into a contract with Charles M. Hatfield, the humbug rainmaker, to pay him \$3000 for furnishing their farms with twelve inches of rain between November 15, 1907, and April 15, 1908. Hatfield has a cinch on the money, provided the coming winter is not a season of drought, in which event the deluded and over-confident grangers will involuntarily save their cash.

The San Francisco police promptly arrest carmen who have the effrontery to defend themselves when attacked by rioters. It is a wonder that Spreckels does not have them indicted for bribery or have the First National Bank sue them for libel.

## DECEASED WIVES' SISTER

The scheme to saddle on San Francisco a broken down system of water works at nearly double its value seems to be encountering snags. Even its proponents take it as libelous to be suspected of owning bonds of the water company.

Nobody has yet explained why Abe Ruef has sent on to New York for a fine new automobile. Automobiles are not among the articles allowed prisoners at San Quentin. Apparently Ruef does not intend to go to San Quentin.

The nickname of "Fuzzy," applied to Mayor Taylor, fits his Chief of Police with a slight change. Anderson seems to be of the type called "Wuzzy."

Mayor Taylor is giving San Francisco a lively administration in some respects at least. There is plenty of rioting even if business is growing slack.

It is a wonder some inspired genius does not accuse Pat Calhoun of instigating the investigation into the doings of the sugar trust.

The anti-lottery crusade was abandoned when it developed that the trail led to the District Attorney's door.

## CHIPS FROM OTHER BLOCKS.

There is really one thing that seems paradoxical in the foothills—that is the temperature. The higher one goes the lower it gets—Grass Valley Union.

"What if capital should go on a strike?" asks the Wall Street Journal. It would soon be hungry the same as labor is when it goes on a strike.—Los Angeles Times.

A number of newspapers are making much over the fact that twenty-two Fresno county school teachers were married last month. It is possible that there is a matrimonial agency down at Fresno with a shrewd press agent.—Grass Valley Union.

## British Chancellor Comes Here on Visit

LONDON, Sept. 6.—The Lord Chancellor, Lord Loreburn, sailed for Canada today. He will visit Niagara and possibly New York. This is the first occasion on which a Lord Chancellor has left the United Kingdom. The law forbids that the great seal, of which he is the custodian, be taken out of the country. It is supposed to be constantly kept in his personal custody, but Lord Loreburn has arranged for safeguarding the seal during his absence.

## BOSTON.

By F. B. THAYER.

It's wrong, I'm sure that history erred,

'Twas not a calf who led

The Pilgrims through the Suffolk woods—

And as he's long since dead,

'Twil do no harm if I relate

How first those byways ran,

Up, down and back, a tipsy trail

Made by a Puritan.

His name was Smith as I'm informed

Whose first uncertain stride,

Marked out the path to Beacon Hill

With older 'neath his hide,

And while I grant the calf was there

There's scarcely any use

To lay the turns off Essex street,

To aught but apple juice

Twas early in the month of June

In sixteen hundred odd,

When first along the Cape Cod shore

That wobbling exile trod

The ruins of the elder mill

Where he took on his load,

Are buried deep in moss and weeds

Hard by the Brookline road

It must have mystified the calf

To follow on a stern,

Up Summer, Milk and Washington

And then at Temple turn,

Down Tremont, Bovston, Elliott

Then counter-march to Castle,

It was no doubt a tortuous route

To lead that infant cattle.

And when that drunken set arrived

Where now stands Castle Square,

I cannot doubt the trailing veal

O'ertook the full knave there

But where they went from there my friends?

Is mystery sublime,

I cannot picture how they made

So many turns, in rhyme.

Since then the Brownin worshippers

And Tommy Cod elite,

Have fallen behind that pair

En route to Beacon street

And though the modern men and maids

The handy Subway use,

They cannot leave the zigzag path

Made by that tippler's shoes.

Which goes to show

That even calves,

Will follow on a stern

When prospects of a drink are good

Just like the human kind

Back, forth and up, in down and out,

Like men they keep the beat;

Ah friends! It is a thirsty route

From Milk to Beacon street

## "WEDS THEM IN THE SPIRIT"

### New Religion Breaks up Families; Causes Scandal; Disgrace

GREENSBURG, Pa., Sept. 6.—Boldly declaring that he is a worshipper at the shrine of a big black negress who has proclaimed herself "God," and whom he calls his "Black God," William McKnight, a wealthy white merchant of New Kensington, Pa., stood before Judge A. D. McDonald today to answer a charge of misconduct with Mrs. Lydia Regis, wife of a prominent New Kensington citizen. After hearing of the weird teachings of the "Black Divinity" and the alleged misconduct of her followers,

the jury returned a verdict of guilty in less than twenty minutes after the case was closed.

For more than three years this strange sect has existed in Pittsburgh and its vicinity. It is charged that homes have been wrecked, families disrupted, fortunes and business sacrificed by men and women who tell into the snare of the big black negress who calls her followers her "children," teaches them that they have ceased to live in the flesh and dwell only in the spirit and "weds them in the spirit" to one another, no matter what their legal marital bonds may be or what their color.

### Mrs. Leiter Plans To 'Dazzle' Swell English Society

LONDON, Sept. 6.—Mrs. L. Z. Leiter will shortly make her re-entrance into society by a series of elaborate house parties at Tullock Castle that will "dazzle England," as she expresses it. Inasmuch as Lady Curzon's death occurred only last August, some little surprise might be expressed over this speedy return from so-called seclusion, but when the Countess of Suffolk made her appearance a few months since at some small social events, son-in-law.

which included a race meeting in the country, it was whispered that Mrs. Leiter would not be long in emerging also. On dit for that the next few years, at least, Mrs. Leiter will make her home in England. After the Tullock Castle season she will take a London house. Lord Curzon, whose guest she has been recently, in his new place near Basingstoke, in Hampshire, is said to be her favorite

### Married Flirted Whipped

NEW YORK, Sept. 6.—Not because he made love to Nellie Enright, of No. 294 Smith street, Brooklyn, but because he happened to be married at the time of his love-making, the entire Enright family, composed of a father and six brothers, did what they considered proper and right to Wesley Simonson, outside the Butler Street Police Court yesterday.

In court Simonson swore that he had not seen the girl for nearly six months, and when Miss Enright told a similar story the court dismissed them.

The Enright family waited on the outside and, after poor Simonson had run the gauntlet of its male members, to his physical detriment, he was locked up on

district. Here each Sunday the faithful "children" of the black leader, negroes and whites of both sexes, assemble early in the morning and mingle until late at night, discussing their weird "revelations" and communing with each other as "spirits" who have ceased to dwell in the land of life and material things.

Mrs. McKnight after three years effort to persuade her recurrent spouse to forsake his strange beliefs has sued for divorce and taken steps to procure possession of his property.

Mrs. Regis, who is named as co-respondent in the McKnight divorce suit, has sued for divorce and her husband has sued McKnight for \$10,000 for alienation of his wife's affections.

LOVE IS MISUNDERSTOOD

kindness, the debt of love, is understood by all.

MISS PEARE,

### Scales of Justice in Woman's Hands Correct

Charles M. Schwab is correct; every woman has a fundamental principle. That of life is kindness and knowledge. No more fit person capable to hold the scales of justice exists than woman. Justice is reason; reason is knowledge.

We are powerless without the aid of another light, physical force. Man awls the sunlight of spiritual force in woman. Kindness is the birthright of humanity. With the knowledge of same comes the pleasing perfection of everything from the making of a loaf of bread to dressing a beautiful mind for the wedding of another soul.

Love is misunderstood by many, but kindness, the debt of love, is understood by all.

MISS PEARE,

### Years Bring Strange Longings for Home

Home is the true woman's sphere. Careers may satisfy for a time, but the years bring strange yearnings for home and those most dear.

Let mothers teach their daughters the sweetest happiness that comes to woman; that of being a true homemaker. Teach her to be a cook, one

that can bring on a "steak," a "boiled potato" and a cup of hot coffee that will be a credit to her.

Many a man drinks because his

### Who Do You Think Is Right?

Here is a chance for the women readers of the woman's page of THE TRIBUNE.

Charles M. Schwab, the millionaire steel man, says that the sphere of a woman begins at home.

Mrs. Stuyvesant Fish, society leader and brilliant leader of fashion, says the sphere of a woman is where she chooses to make it.

Mr. Schwab says that marriage is always the goal of woman, and Mrs. Fish says marriage is a minor consideration to a career.

WHICH OF THE TWO DO YOU BELIEVE IS RIGHT?

THE TRIBUNE will pay \$20 for the best letter on this subject. Send in your opinion. The contest will remain open until September 15. Write plainly on one side of the paper, and write clearly, limiting your letter to one hundred words.

Address, "Woman's Page Editor, THE TRIBUNE, Oakland, Cal."

that can bring on a "steak," a "boiled potato" and a cup of hot coffee that will be a credit to her.

Many a man drinks because his

stomach is empty or improperly nourished. Woman is the ruler if she arms herself. Arm her, and careers flee with the clouds.

MARY E. FLECKENSTEIN,

1775 Dwinelle St., Oakland.

### Believes the Home Is Woman's World

Home is a woman's world, turned on the axis of love, devotion, inspiration and happiness. This the mother who is the noblest adviser, the patient provider and the "healing angel" whose influence of home life inspires man sent by God to enlighten the world. And woman, even though superior to man in knowledge, wisdom and patience, is like a bird on a burning ladder, and when near the summit is driven back by "Mother Virtue," who raises a wall impassable by the noble-minded, and her career, no matter of what nature, is blighted.

Let men, as God ordained,

Be the sole support of all.

There will be much more happiness and fewer women to fail.

For the noblest work of God,

No matter where you roam,

You'll always find is ever done

Within her little home.

### FEAR SCHOONER LOST IN ARCTIC

**ATHABASCA LANDING,** Canada, Sept. 6.—News of the probable loss of the schooner Duchess of Bedford, the ship belonging to the Anglo-American Arctic Expedition which had hopes to find a new continent north of the Mackenzie river, was brought here by W. Fred Harrison, who has been beyond the Arctic Circle for three years and who came here on the steamer Michigan Sun. Mr. Harrison says Ernest Stefansson of Harvard University, after whom the expedition has been called, himself brought the news of the loss of their boat to Hazelton Island.

He also brought the news of the disappearance of three members of the party and expressed the fear that they had met death in the frozen North.

#### THREE ARE MISSING.

The missing men are Captain Michaelson, a Dane; Ernest Leffingwell, of Chicago, and J. Marks. They left the ship in February with sixty days' provision for the supposed land to the North and had gone seven days and no news had been received from them.

One of their teams of dogs had returned and it is feared the party will never be heard from again. The schooner Duchess of Bedford, Stefansson thought, had probably sunk. The ship had filled with water probably for the ice strait, but they had been able to remove everything of value to the shore.

We grew from a firm of two to one hundred and twenty employees in our busy season. Only honesty, energy and sound judgment were our guides.

### LEAVES WHILE SPOUSE FISHES

**SAN FRANCISCO,** Sept. 6.—Alberto C. Siebe, the beautiful daughter of the prominent architect, George C. Siebe, family of Modesto, has sued John F. Siebe, son of the late John E. Siebe, former assessor, for divorce.

The complaint recites failure to provide as a ground for divorce. No community property is set forth and no alimony for the wife is asked.

John F. Siebe is in retirement yesterday and from the members of his family and intimate friends he believes that might throw light upon the cause of the divorce. Mrs. Siebe is at her old home in Modesto, where she will remain until the case is decided for trial.

**SECOND VENTURE.**

It was in October, 1905, that John Siebe

married the dashing divorcee, Mrs. Howard Taylor; for this is the second matrimonial venture by the former Miss Cressey, who was divorced from the reeds of the divorce court.

Siebe's married life proved happy, so his friends say, until after the fire, when Siebe one day packed up her things and left.

Whether or not Siebe's infidelity caused his departure is not known, but the cause will only be known when Mrs. Siebe presents her case. For it is stated that Siebe's marriage was a happy one.

The trip proved a source of trouble. Of all the local disciples of Isaac Walton John Siebe is probably the best known.

John Siebe is the son of John Siebe, who died in 1905, in the same year that Siebe married Mrs. Howard Taylor, formerly a prominent member of the Olympic club.

### PERSIAN MINISTER REACHES AMERICA

**SAN FRANCISCO,** Sept. 6.—General Morteza Khan, minister plenipotentiary from the Kingdom of Persia to the United States and Mexico, has arrived in this city. He bears messages to the government of both countries of the accession of Mohammed Ali Shah to the Persian throne, upon the death of former Shah, which took place on January 9th last. The general says it is his desire to establish permanent commercial relations between the United States and Persia, where there is, he says, a large mar-

ket for American cotton and agricultural implements.

**A Human Appeal.**

A humane citizen of Richmond, Ind., U. D. Williams, 105 West Main St., says: "I appeal to all persons with lungs to take Dr. King's New Discovery, the only remedy that has been found thus far to meet the appropriate recommendation." It saves more lives than all other throat and lung remedies put together. Used as a cough and cold cure, the world over, it cures scrofula, scabies, leprosy, rheumatism, asthma, epilepsy, beriberi, and phthisis, stops hemorrhages of the lungs and止血, and cures the disease of the heart and lungs.

SUES LANGDON AND SPRECKELS FOR LIBEL

SAN FRANCISCO, Sept. 6.—Attorney Daniel O'Connell has sued District Attorney Langdon and John D. Spreckels for \$30,000 damages, charging the defendants with having libeled him and asserting that statements printed about him are false. The suit grows out of an article filed against the auditor and treasurer of the city, asking that the salaries of certain deputies in the district attorney's office be "held up." In answer to it's suit the district attorney charged O'Connell of having served in the workhouse in Massachusetts for bribery.

## LAWSUITS IF NO IRRIGATION, CRIES SHORT

### JUDGE STATES LITIGATION BETTER THAN NO WATER

**Expert Declares Trees Must Be Preserved in Order to Keep a Source for Streams.**

SACRAMENTO, Sept. 6.—A large attendance of delegates and spectators greeted Governor Chamberlain when he called the morning session of the irrigation congress to order. This is the last of addresses, as the election of officers and reports of committees will mark the proceedings tomorrow, the last day of the gathering.

Land and irrigation laws were to have been the subjects of the papers for this morning, but J. M. Carey of Wyoming, author of the Carey act, was not present to speak on "the public land laws."

#### JUDGE SHORT SPEAKS.

A feature of the session was the address of Judge Frank H. Short of California, who discussed "California's Irrigation Laws." He aroused much enthusiasm by his remarks. He said it was necessary to have litigation

### REALTY MEN COMBINE TO EXHIBIT AT CO. CARNIVAL

**Real Estate Organizations of Oakland, Berkeley and Alameda Will Boom County in One Booth.**

There was a meeting yesterday afternoon in this city of the members of the real estate organizations of this city, Alameda and Berkeley for the purpose of discussing what ought to be done for the purpose of presenting the business at the forthcoming carnival which is to be held in Idora Park in this city toward the latter part of this month and the first of the month which is approaching.

W. J. Lawrence presided and O. E. Holle acted as secretary. There were twenty-five dealers present and all of the towns referred to were represented.

There was considerable discussion on the question of having all the cities included in the meeting to be made at the exposition in question and it was specially desired that there should be harmony among the representatives of the business in the various cities.

**ALL FOR ALAMEDA COUNTY.**

After the matter had been discussed for some time, it was decided that the real

estate men of the three cities mentioned should have booths together in the carnival and that they should all work for the purpose of helping their own cities without prejudice to any other place, and that all of them were to strive to advance the interests of Alameda county.

An article was submitted by Mr. Woodhead of the Sunset Magazine, which it was proposed to publish in that magazine, in the issue of October, November and December. The article set forth the advantages of Alameda county and was approved by the realty men present.

### SOCIETY WILL GATHER AT CLAREMONT MONDAY NIGHT

**Illuminations, Dancing and Feasting Will Mark the Second Opening at Club House.**

There have been a number of very pleasant affairs at the Claremont Country Club, which is composed almost entirely of residents of this country, but the greatest of the festivities ever held at this institution was when the club threw its doors open for the first time to its members.

The second great event will take place next Monday night, when the second opening will take place, and this feature will be the grand illumination expected to exceed in interest, splendor and entertainment the night on which the club started upon its career.

#### MORE PLEASURE NEEDED.

When the club opened to the public there was a small audience, and there was an augury of the success of the undertaking. Soon after this augury was appreciated, the members of the club found that they had a great desire to do for the purpose of carrying out the intent of the organization, and among these were the enlargement of the accommodations, the enlargement of the membership, and the enlargement of the members' regard for their varied tastes.

#### ENLARGING ACCOMMODATIONS.

With that end in view, that means of entertainment which were popular in the early days of the club, the possibilities of the structures which were originally provided should be supplied. The work was ordered done, and now that it has been completed to the satisfaction of the management, the place is

NEWARK, O., Sept. 6.—Grant Ferguson, a former railroad conductor here, telephoned from Aguas, Clientes, Mexico, to say: Edward Stover and W. B. Speed were released from prison yesterday by the Mexican government unconditionally and no charges remain against them.

Stover and Speed are American railroad conductors who were imprisoned over a year ago charged with a murder which neither committed. Ferguson placed the case before the United States government and with the assistance of Senators Foraker and Dick secured the release of the two men showing the men to be innocent.

### SEEKS TO KEEP PARK GROUNDS

**Edson Adams Begins Legal Proceedings to Get His Land on Market.**

Edson F. Adams began mandamus proceedings in the Superior Court yesterday afternoon against the members of the Oakland City Council to compel them to accept and endorse the map he has prepared of proposed streets on Adams Point which the city is seeking to acquire for park lands.

Judge Ellsworth issued an alternative writ of mandate returnable before him on September 13, when the city fathers will be cited to show cause why they refuse to endorse the proposed opening of the new tract.

#### ALLEGES INJURY.

Adams says he has been injured by the action of the City Council in declining to recognize the map he has prepared for his proposed opening for residential purposes. The strip of land in question runs from Grand Avenue, at the northeastern end of Lake Merritt, to a point where the city boulevard now ends on Adams Point.

At a recent meeting of the councilmen Adams asked them to endorse his map for the plot which he said he desired to cut up for the market. The City Council prevented his plan by declining to accept the map and allow him to throw open streets.

#### OBJECT TO OPEN STREETS.

The council stated that Adams' plans would interfere with the big project now on foot by the municipality to get possession of the point for boulevard and park purposes. The councilmen said Edson F. Adams' proposition to dedicate now streets they passed a resolution declaring their intention to acquire the land.

Through Attorney Milton S. Hamilton, Adams said he was unwilling to sell

the land.

When the City Council offered to purchase the property some time ago it was held at what was claimed to be an excessive figure. It was then threatened that condemnation proceedings would be brought against the bankers and property owners.

The city may yet take these legal steps in order to obtain control of the desired park lands for the purchase of which the bonds have already been raised.

### Klamath Falls and Return

On September 7th the Southern Pacific Company will sell round trip tickets above named points for \$10.00 each train No. 14, leaving Oakland, 16th street, at 4:17 p.m. Final return, until September 22d, stop over at Shasta Springs, return \$10.00. This is an excellent opportunity to make the most of this new country. Tickets on sale, Southern Pacific Company, 13th and Franklin streets, one block east of Broadway. Phone Oakland 543. ### Dances Until Faints, But Keeps Dancing

Emma Jones, a sixteen-year-old laundry girl living at 736 East Sixteenth street, danced to such an excess last night at Central Hall that she fell in a faint and the dance managers thought her dead. They hurried her to the Reciting Room where Night Steward Jack Travers revived her sufficiently to resume the remaining dances on her program.

### HOPE CLOWRY WILL RESIGN

**Commercial Telegraphers Looking for Amicable Settlement of Strike.**

to be dedicated in a manner which will long be remembered by the members of the organization.

#### COSTLY IMPROVEMENTS.

The improvements to the club structures will be made in the ballroom, which is now under construction, and the theater, enabling stages and distinguished speakers to be heard from time to time and also to afford the members opportunity of viewing the interesting performances of hose theatricals in which the regular members of the families of the regular members of the club may take part. Up to the present time the club has a great deal to do for the improvement of the organization.

#### SCHEMES FOR PLEASURE.

Among the improvements referred to will be apartments for men, comprising ladies' billiard rooms, lockers, lockers for ladies' library rooms, a porch, which will shelter all the occupants from the severity of the elements and a large card room which will be double decked capacity of the place in which meals were originally served. Now 250 people may be served at one time.

#### OPEN MONDAY.

On Monday night all of these features will be illuminated and there will be a sound of revelry by night which has been heard before in those precincts.

#### All of the members of the club are invited to the festivity and that means that they will be invited to the ballroom, the reason that there are more than 500 members on the roll, and each of these is welcome to bring with him the members of his family. The ballroom will be carried to the extreme it would mean that the attendance on this gala occasion would exceed a thousand persons. For that reason, however, the number of guests will be limited to fifty in order that there may be no overcrowding and that a comfortable enjoyment may be obtained by all. It is to be desired that there be no member who wishes to be prevented from enjoying that to the fullest.

**PROF. S. BOWEN PASSED AWAY OVER IN IRELAND**

BERKELEY, Sept. 6.—Friends in this learned yesterday of the death of Professor Stewart Bowen, who passed away in Dublin on Monday last.

Professor Bowen was a long-time resident of Berkeley, and for many years the head of Bowen's Academy. He had the reputation of being one of the most successful educators of boys on the Pacific coast.

Bowen was a noted classical scholar, and as an exponent of the dead languages had very few equals in this country. He held two degrees from Trinity College.

Last June he left for Ireland, accompanied by his wife, on an extended visit. Shortly after his arrival there he was taken ill with a disease which caused his death last Monday.

In addition to his widow, Professor Bowen leaves a daughter, Mrs. R. V. Whiting of San Francisco, and two stepsons, Mr. William S. Sturz, San Francisco business man, and John Wallace, secretary of the Peyton Chemical Company, the latter being with his parents in Dublin at the time of his death.

# FIREMAN FALLS FIRST TO REACH HOME AGAIN

Five Other Men are Injured in an Early Morning Fire at Fresno.

U. S. Gunboat Raleigh Arrives in Port From Orient After Tempestuous Trip.

SAN FRANCISCO, Sept. 6.—In a fire that destroyed the Fresno cyclery on 1st street, in the center of the business district, at 2 o'clock this morning George Penneybacker, a fireman, lost his life.

The building was filled with gas, from which the fire evidently started, and the flames spread rapidly, setting the glass cases afire.

He was taken out by his comrades of the fire department, but died at 10:30 from the effects of the heat and burns he received.

G. A. Stewart, one of the proprietors of the cyclery, was lying on a couch just outside the burning building, up to his waist in water, when he struck a match the whole building was enveloped in flames.

It is thought that the room was set on fire to attract the attention of the alarm.

The loss is \$50,000.

Five others were injured while rescuing Penneybacker. They will all recover.

# TO ADVERTISE COLLEGE TOWN

Berkeley Business Men Urged to Show Themselves in Los Angeles.

BERKELEY, Sept. 6.—Advertising Berkeley was the theme taken by A. F. Power, representing the Los Angeles Promotion Committee, who again addressed the Berkeley Chamber of Commerce and business men yesterday afternoon at 4:30 o'clock. Power urged the Berkeleyans to arrange a trip to Los Angeles for the idea of setting off Berkeley's advantages before the people of the southland. "The residents of Los Angeles want to know you," he said. "They will be interested in the thousands of tourists who visit the metropolis of the southern part of the State every year. The Los Angeles Board of Trade for display purposes, and by mingling with the residents of the city, get them to look upon Berkeley as their own town during the rest of the year."

After considering Mr. Power's proposition, the chamber deferred action to a later date.

**DEPLORE DELAY.**

The revival of interest in the charter revision for the town of Berkeley was commented on by Secretary S. N. Wyckoff, and the majority of the members present deplored the fact that the measure had been allowed to lapse at all when started a few years ago.

The committee on municipal affairs was instructed to continue its efforts in this movement to facilitate revision at the earliest possible date.

Wyckoff then introduced a communication from the state assembly signed by G. E. Beddenbach, president of the Berkeley Teachers' Association, and W. E. Gilliland, secretary of the Associated Redwood Teachers' Association, and W. E. Gilliland, secretary of the Associated Redwood Teachers' Association.

The communication was on the subject of clean streets and reads as follows:

**UNCLEAN STREETS.**

"When I become old enough to give advice to young men," said Professor Moses, "I would say 'first, learn to work, and then take up your wallet and see the world. In every corner of the world there are men, white, black or yellow who are worthy of your attention, your kindly interest and even greater affection. We must remember that the world shined upon other hills than our own, and that the little valleys beyond the sea, the bottoms of earth and sky are spread out just as lavishly as in our own fair land.'

**SEE THE WORLD.**

"In South America you will discover the richest unexplored field of history in the world. The colonization of this land was the most courageous enterprise ever launched in the history of the human race. It was begun and carried on with the spirit which prompted the crusades."

Professor Moses briefly sketched the relations of the various nation in South America. He pointed out the important part arbitration now playing in settling the difficulties of these warring states.

The Rev. William Herman Hopkins, pastor of the First Congregational Church of this city, was the other speaker at the University meeting this evening. He gave the students some valuable advice and spoke very interestingly of how much a college training means to a young man or woman.

**CRIPPLED BOY IS MISSING**

The police have been asked to look out for the 11-year-old son of F. A. Nichols, 1419 Ninth street. He is slightly lame, of fair complexion, with brown hair and blue eyes. When he left home he wore a red sweater, brown pants and a gray cap.

A new house in course of construction on Howard street was broken into last night and a number of tools belonging to W. F. Drury, 3812 Shattuck avenue, were stolen.

**GET VALUABLE BOOKS.**

BERKELEY, Sept. 6.—Valuable purchases have been made by the University library in London in the form of several works of English miscellaneous literature.

A work of importance to the anthropological department is a collection and is a volume dealing with the topography of the Pacific Islands.

Another important book is Volume I of "Trees of Great Britain and Ireland" by Henry John Elwes. It is the beginning of a valuable work, and contains many fine photogravures of British trees and forests.

There are also many works of the current poets in England, such as Bunyan, Watson, May, Meynell, Davidson, and others of the present day, which will be added to the collection.

A "History of the Horn Book" by Tuer, containing three of the old hornbooks, by which our forefathers were taught the alphabet, was in the purchase.

# ADAMS SAYS LAW IGNORED

Lake Merritt Property-Owner Issues Statement Concerning Suit Against City.

SAN FRANCISCO, Sept. 6.—With a homeward-bound pennant floating from her masthead, the United States gunboat Raleigh steamed into port this morning as the first vessel of the Asiatic fleet, now bound this way, to arrive from the Orient.

Edson F. Adams made the following statement in reference to the mandamus suit he brought in the Superior Court:

"This mandamus suit was filed simply to have the laws of the State observed when every citizen has a right to do where the laws of our State are absolutely ignored by those that have their execution in charge. I regret that I have been forced to sue the city to get the protection of the courts. I have sales pending the approval of this case and also let contracts for large amounts of steel work on the city. This tract of land is not included in lands covered by the bond issue. I do not think that it is right for the city of Oakland to attempt to claim ownership of this land and throw things in the way of my proving and selling it upon the theory that some day in a year or two they may come along and try to purchase this additional land for a park. I do not think that attitude will meet the approval of any fair-minded citizen."

**700 MILES BY WIRELESS.**

While a great distance off port the vessel established communication by wireless with North America, a distance of over 700 miles, and announced her coming.

It is the opinion of those on the Raleigh that the gunboat will not go out of commission for some time but will await the completion of the repair work.

According to the word brought by the gunboat, the battleships Cleveland and Denver had joined the fleet in the Orient.

**KEEPER OF CHINESE DEN SECURES BAIL**

Woon Ho, a young Chinese woman, who is charged with inducing Suie Sun, a seventeen year old girl to enter a house of ill repute on Second street, was arraigned in the police court this morning and her case went over until September 20 for trial. Judge Frank fixed Woon Ho's bail at \$2000, and which was furnished by H. L. Gogood, the druggist, and Lun Ben.

This is composed of \$12,200 in cash, \$20,000 in real property at Eleventh and Madison streets, worth \$10,000 and the balance, with the exception of law and law promissory notes,

**PARISH WILL GIVE HARVEST FESTIVAL**

BERKELEY, September 6.—Returns from the picnic of St. Joseph's Church on this day, which was given recently at Alton, show a total amount of money over \$500 clear of all expenses. The picnic was largely attended by people from Berkeley and other places, and the clergy of St. Joseph's Church are pleased to report that the entire outfit was under the supervision of the Rev. Paul Ryan, assisted by committees of men and women, and it was due to their efficient work that the picnic was so successful.

**HARVEST FESTIVAL.**

The numerous societies of the parish are deeply interested in the coming "Harvest Festival" which will be held on the early autumn. It will be held in the skating rink on Alton way, and organized by the largest festeras ever held in a Berkeley church. It will last seven nights, with each night an entertainment consisting of singing and vaudeville sketches will be rendered by well known talent. Booths will be erected in different parts of the big rink and there will be stocked with all sorts of dairy household articles, which will be offered for sale.

**CHILDREN'S NIGHT.**

"Children's Night" under the direction of Mrs. Seekamp will be one of the features of the festival. Mrs. Laura Culburn, talented soprano of St. Joseph's Church, will sing solo program, while many other talented girls will participate. One of the features of the children's night will be a Maypole danced by a score of little maidens, each dressed in a fitting costume, and singing old-time May-day songs.

## GREAT LIGHTWEIGHTS ARE REDUCING TO RIGHT WEIGHT

**Science of Reducing Is Now Chief Factor in Training—Delaney and Al Kaufman Go East.**

By EDDIE SMITH.

From today on the great little fighters who will meet Monday afternoon in the speedily constructed arena which will be placed in the field of the Pacific Coast League baseball grounds on Valencia street, will ease off in their training and the scientific methods employed by each to reach the required weight will be brought into play.

The science of reducing the fighter to a match where he will be strong, yet not have an ounce of surplus flesh on his frame, is one big feature of training that requires great care and knowledge.

In many fights that I have seen, the best man at the game of fistfights has been beaten through the lack of discretion during the period of his training that he was reducing to the required weight.

There, too, many fighters have signed up to make certain weights that they have been unable to reach, and through anxiety to get the better of an opponent they have sacrificed themselves.

Time and again the prospective fighter in some star pugilistic attraction has been able to get within one pound of the required weight and then stick at that figure and not be able to get the required pounds off him.

The fighter may go on the road and do his gymnasium rounds, and get the extra pound off, then weight three or four hours later in the day, or the next morning, and find that he has picked up the same old pound.

The moisture that he will pick up from the atmosphere will bring him the extra pound in surprisingly short time.

It is the most discouraging thing about the training of a pugilist and the one thing above all others that makes the fighter a living land crab and crank during the last few days of training.

For the Britt-Gans fight, both men are making a weight that will cause them to sit up and "take notice" of what they do during the time which will elapse from now until the date of the contest.

Gans seems to be having no trouble in making the weight, and says that he has nothing to worry over on that score, and his work bears him out in what he says.

Yet the fact remains that the colored boy, even though he has been the hero of many battles during the last seventeen years, will be worrying during the last few days as to just how he will hold down.

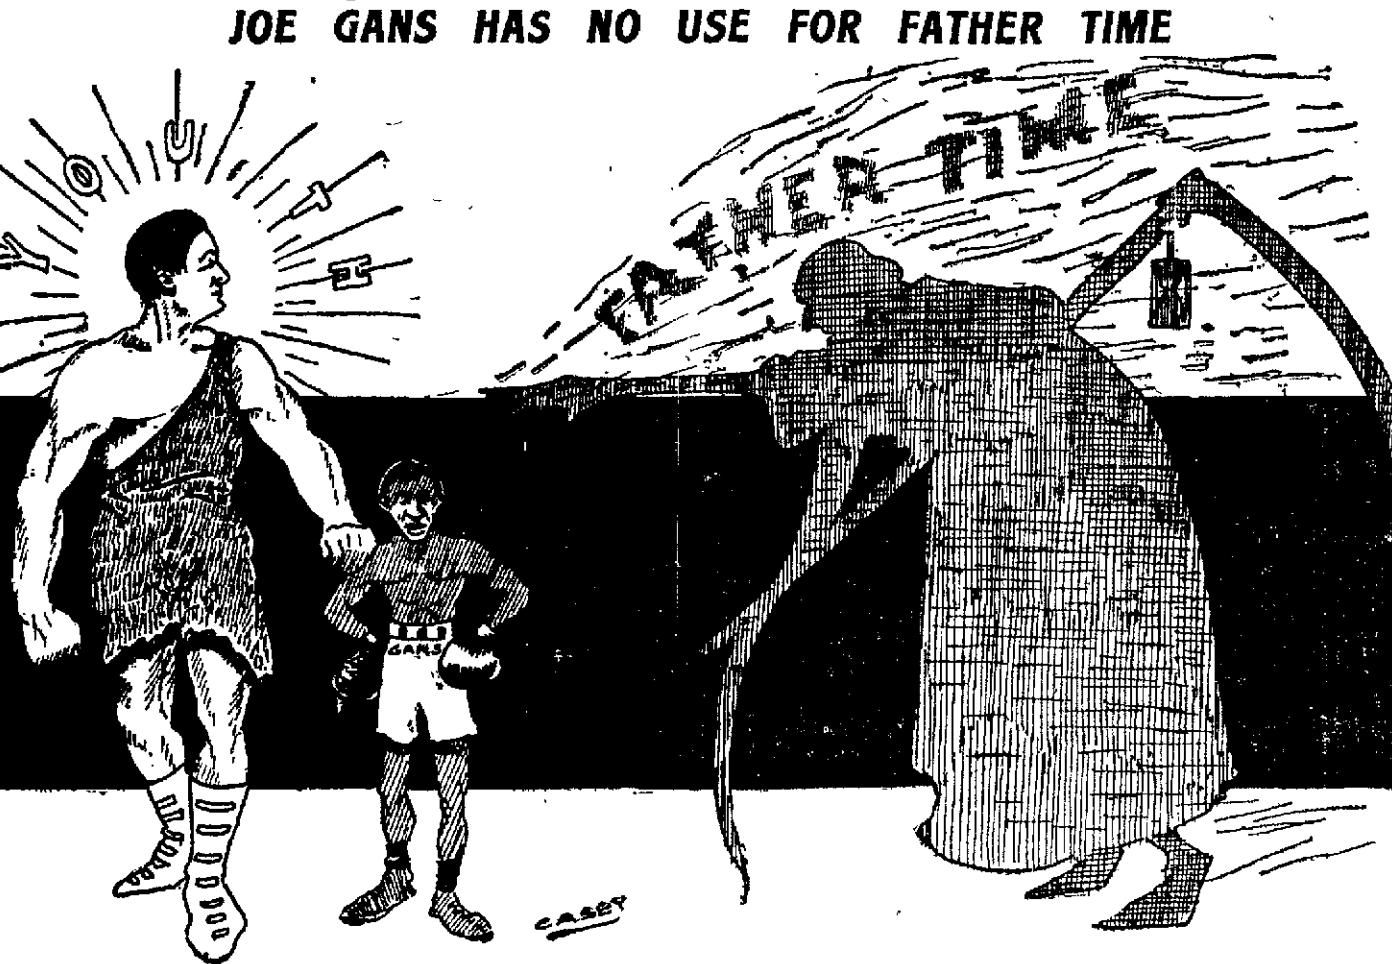

Jack Welsh has visited both men, and as he has referred for each in previous contests, there was little for him to do but say that he would give each man a square deal, which there is little doubt but that he will.

Billy Delaney and Al Kaufman have left for the East, where the veteran manager and trainer will match the California boy with some of the Eastern aunts.

Kaufman is fighting better now than he has ever before, and should clean up on all the Eastern heavies. Jack Johnson will loom up and challenge the blacksmith, of course, but Delaney will no doubt turn the offer of a match with the negro down.

Johnson in a six-round bout would be a bad match for any heavyweight in the game. Kaufman's large number of friends on the coast wish him the best of success.

Gans is at the present time well within

## JOE GANS IS BEAU IDEAL OF MODERN PRIZE RING

**Ebon Pugilist Resembles Piece of Finely Carved Bronze When He Strips for Action.**

BY T. P. MAGILLIGAN.

Those who journeyed over to Alameda yesterday afternoon to watch Joe Gans put on the final touches in his training stood open-mouthed and marveled at the ebon pugilist as he pushed through his exercises with the grace and precision of a master.

In repose Gans suggests a bronze statue after a Phidian masterpiece. Around the little body there is a suggestion of muscle and vein that matches the fine tracery of a vine leaf. Fine muscles stand out in bounteous relief on his coat glistening like bronze under a summer sun, and underneath all there is a suggestion of a fine quality of bone.

On the little platform where he does his work Gans stands out like a figure in bronze with the same fluid of a superb gentleman. He gave little heed to the brat that goes on about him and goes through his exercises with the precision of a Dutch housemaid tending her garden.

In the crowd that watched Gans were some of the best judges of pugilists in America. Even these blase gentlemen wondered and marveled as much at the condition of Gans as did the merest tyro in the throng.

### DOWN TO WEIGHT.

The champion is down to a weight where he can easily reach the mark, and there is no indication that the reducing process has weakened him in the least. Joe seems hard as nails. He is the type ideal of the boxer. When nature formed Gans she had an eye to economy. There is none of that sag in the body of Gans which characterizes most pugilists. For symmetry and conformation Gans stands alone in the realms of the divine.

His head is well formed for a pugilist. The crown is well-rounded and arched, his cheek bones are set high and firm; his eyes are imbedded under a perfect arch of bone, which protects them from the jaws, which worry most boxers, and he has the firm jaw denoting courage of a big deer.

His head arches well into his neck, which is set on powerful shoulders. His torso suggests the finely carved barrel of a thoroughbred race horse. Here posture also shows her eye for economy in the formation of this wonderful body. Gans is not of that type of sprawling, broad shoulders, which, for instance, characterizes football players and wrestlers. His shoulders are firmly rounded and compact, and banked with little regiments of muscle and sinew, indicating terrific hitting power. Gans arms follow the entire scheme of his wonderful lithesome physique. They are firm well set off the proper length, and when he tenses them they resemble bronze rather than flesh and bone and muscle.

### FINE LEGS.

Gans' legs are like and powerful. The calves are gracefully rounded, and his thighs are not overset with flesh.

The whole scheme of Gans' make-up suggests nature's economy, and her purpose of forming him for the profession, which he has chosen, and of which he is today and has been for years a master.

Every move and action of the Battlemorean suggests the fighter. His work is cameo cut, there is neither waste nor lack of power in this marvelous light-on-the-champion.

James Rafferty, who was killed by an out-going Southern Pacific train near the Key Route sub-way, was a brother to Jockey Thomas Rafferty a once noted rider.

R. L. Thomas, a wealthy Eastern horseman, who has raced at New Orleans, announces he will race his stable, which consists of about forty performers, on the Oakland track next season. Jockey Schilling will do the riding.

M. L. Hyman, A. G. Blakely and Sam Hildreth it is said, will also campaign a big string of high-class horses at Williams Park.

Montgomery, with a long list of stakes events to his credit, Keator and other well-known performers from the stable of Frank E. Brown will sport silk at Emeryville the coming season.

**The Amadorians again met defeat at the hands of the Nationals by a score of 8-6. The features of the game were the pitching of Sperry, who struck out twelve men and the batting of Seaman, who hit the ball for a two-base and three-base hits. This is the second game the Nationals have played and they have been victorious in both games. The Nationals leave a challenge for all amateur teams in the county averaging sixteen years of age. **Angels Win Game From the Seals**

### STANDING OF THE CLUBS.

After fourteen innings of sensational baseball at Recreation Park in San Francisco, the Angels scored the run that won for them the 2-to-1 victory against Danny Long's tribe yesterday.

Jones and Burns opposed each other on the rubber and both men were in fine fettle. The Angels combed Jones for ten hits in fourteen rounds, while the Seals collected eleven of Mr. Burns.

Play seemed impossible as a wild

pitch from the pitcher and the game

was a rattling good one from every stand-

point.

The first half of the game saw in the seventh, Bager was the man to get the pass and he went to second when the Angels' big boxer laid down a neat bunt. The runner started just momentum and sprinted home when Bernard loosened a board in the right field fence that netted him two bags. San Fran avenged its loss in the eighth inning.

Irwin received one in the ribs and walked. Michelot bunted to Burns and he got the ball to Delmas in time to catch it and throw to first. Burns and Bader exchanged a few words and Bader rapped home on a long single by Nick Williams. That was all for Long's men but went on the warpath and in a couple of minutes they thought of them when they tossed away a run and the game in the final half of the ninth.

Spencer led off with a single but was forced at the middle sack by Wheeler. George stole second and reached third on a wild pitch, but Irwin, Chappell tried to steal second and got the throw from Bager so that Wheeler could score.

He drew the throw all right, but Delmas stepped the angle and the ball hit the fence behind the shortstop and all hope of a run vanished. Long said that the men had no right to try for the play with only one man in, for a long way they played.

Things ran along with the score one all till the first of the fourteenth, and once again Bager drew the prize. He homered to second on his game lead when Bernard hit a double and put his foot on the plate when he was safe. San Fran tried to rally enough and got two men on the base, but Delmas grabbed Spencer's hard drive and threw to first. Hillbrand reached the bag and it was curtains for the Seals. The score:

## Reliance Club Holds Meeting.

The Board of Directors of the Reliance club held a most important meeting last night at the new club rooms.

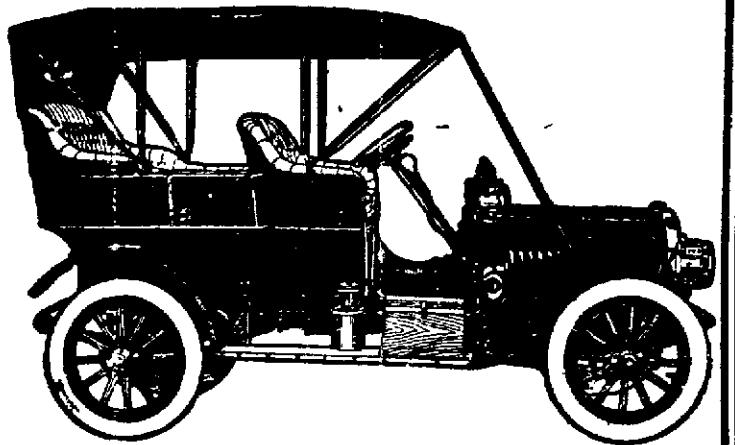

Many improvements in the running of the club were talked over.

Professor Lewis, the new physical instructor, who will have charge of the gymnasium and instruct the business men's, ladies' and juvenile classes, was instructed to begin his work Wednesday afternoon, when the first of the business men's classes will be held.

Otto Ritter was reappointed gymnasium instructor, Chester Ed Warren boxing instructor, and Captain Flathead fencing instructor.

The last named instructors have been with the Reliance club for years, and their work has been of such character that the directors not only retained them as instructors, but complimented them on their work in the past and asked that they remain with the club and work in the

## BIG OIL LAND SUIT IS FILED

Fraud and Violation of Cartwright Anti-Trust Law is Alleged.

SAN FRANCISCO, Sept. 6.—A suit which will probably test the constitutionality of the Cartwright Act has been filed in the Superior Court. It is a suit that involves millions of dollars' worth of oil lands in Kern and San Luis Obispo counties—between 30,000 and 40,000 acres—and is brought by I. Straubinger, a broker of this city, and T. J. Wrampelmeyer of New York, an expert chemist and against the Atchison Topeka and Santa Fe railroad, the Chancery-Central Midway Oil Company, J. A. Chanson, H. M. McLoosh, president of the oil company, C. A. Canfield and J. W. Jameson. Charges of misrepresentation and fraud are made. Counsel for plaintiffs, J. D. Lederman and Hiram Johnson, assert that an agreement made between the defendants and the plaintiffs which it is sought to have declared void, is in violation of the Cartwright Act, as it limits the production of oil and therefore in restraint of trade.

### TO RAISE OIL

According to Attorney Lederman, the defendants, with the exception of the railroad and Jameson leased from Straubinger and Wrampelmeyer their valuable oil lands in the southern part of the State, with the understanding that they were to be paid a royalty on all of the oil produced. Thereafter, Canfield induced Straubinger to sign an agreement which Lederman says was to stop the production of oil for ten years, so as to raise the price. After the signing of the agreement, the attorney asserted, the defendants, with the exception of Jameson, were sold to the railroad company for \$2,000,000 and the production of oil has stopped not for the purpose of raising the price, but to retain a great natural storehouse for the Santa Fe, so that it can produce its own oil when the price goes up.

## Del Monte Heights For a Home

Del Monte Heights is but ten minutes walk from Hôtel Del Monte. Every charm, every attraction of ocean, bay, mountain, lake and forest that has made Hotel Del Monte famous all over the world, all are at the very door of every home that is built at Del Monte Heights.

At the Heights is Lake del Rey, a beautiful body of water one-half mile long and 1000 feet wide. This lake is soon to be transformed into a second Naples or Venice with concert pavilion, boats, gondolas, landings and myriads of lights for night illumination. It will be a veritable fairy land.

A bath house is to be built at the beach to accommodate the surf bathers.

Streets will be curbed, oiled and graded. Sidewalks will have shade trees. Sewer and water pipes to be laid. Electric cars will connect Del Monte Heights with Monterey and Pacific Grove.

In fact Del Monte Heights will be an ideal residence town—a part of fast growing Monterey.

## Del Monte Heights As an Investment

Monterey has deep water where ocean going vessels can dock. It's the logical outlet for all products of the San Joaquin, Santa Clara and Salinas Valleys. That's why railroads are preparing to build terminals and wharves at Monterey. Mark this. Where rail and water meet industry will thrive. Monterey is going to be the largest city between San Francisco and Los Angeles. All this increased population will have to have homes. Del Monte Heights is the natural place for these homes as it will have every attraction.

Buy a lot at Del Monte Height now for \$100 to \$300. It's the best investment you can make. Your property will grow more valuable all the time.

Get a copy of our booklet that tells more of this great residence town that is now going ahead so fast.

THE VALUE OF A TRADE-MARK  
A trade mark is usually some one particular mark on goods to show their origin but as a matter of fact any new original quality feature or characteristic made known through advertising becomes valuable as a trade mark and is protected by the courts so that one article may have many trade-marks that belong to it alone. Thus for example, in the case of Cascarets, Candy Cathartics, the name Cascarets, the expression Candy Cathartics, the peculiar color and shape of box, the octagonal tablet and the letters C.C.C. on each tablet are expressive trade-marks of that popular medicine because they indicate their genuineness distinguishing them from imitations and have become universally known to the people.

Don't use harsh laxatives. The reaction works like the oven. Get Dr. Doan's Regulator. They operate easily, tone the stomach, cure constipation.

Harsh purgative remedies are fast acting way to the gentle action and effects of Carter's Little Liver Pill. If you try them they will certainly please you.

The young gentleman  
should have been reading some of the  
new thought magazines which tell us

there is no need of growing old as we  
grow aged and no need of shuffling off

our mortal coils until we reach the  
ages credited to some of the Jewish

patriarchs. There is plenty of cheer-

ful reading to be had these days with

out even looking into the daily news-

## EVELYN THAW IGNORES ARTIST

Woman Painter and Boer Heroine  
Abruptly Dismissed Before  
Picture is Finished.

NEW YORK, Sept. 6.—Evelyn Nesbit Thaw, who for several weeks has been sitting for her portrait to Mme. Marie von Veltheim, the Boer heroine and painter of Princess has suddenly discharged the artist and cast aside the half-finished work of art.

Much mystery surrounds the abrupt termination of the contract. The picture, it is said, was ordered by Harry Kendall Thaw and designed for him as one of the most elaborate and costly ever executed in America.

COMPARE ROMANCES.

Mme. von Veltheim came to America about a month ago with the reputation of having won the heart of the young Edward and with a romance in her ice cold life somewhat similar to that of the younger Mrs. Thaw.

Her first and young wife of Harry Thaw was greatly interested in the tragic romance with which the painter had invested her life. Her husband was the famous Edward, the young man who when the Boer millionaire Woolf Jools planned to kidnap Oom Paul Kruger in the event of the Boer war, the conspirator failed and von Veltheim shot and killed Woolf Jools.

For a few weeks Mrs. Thaw's sittings went on each day, while we provided the model painter. Mme. von Veltheim appeared charmed with her client.

MOOD CHANGES.

But the other day, when she was told cuts by the maid that Evelyn Nesbit Thaw was not in. Since then she has been informed that there will be no more sittings with her former client who will not see her again.

When Mrs. Thaw was asked to explain the situation, she replied: "I am engaged to Mr. O'Reilly."

O'Reilly was out of town but his brother consented to make this statement.

Mrs. Thaw had been complaining for some days about the lack of progress made by the artist in spite of the tire-some poses in which she held the sitters twice each day.

SHIPS AS FIRST MATE  
ON MATRIMONIAL SEA

STOCKTON Sept. 6.—The wedding of Guy Alvin Buell of San Francisco and Miss Edna E. Felt of this city was performed by the Rev. John Stephens of the Central Methodist Episcopal Church at the residence of the bride's parents M. and T. D. Felt. Only intimate friends and relatives were present.

A wedding breakfast was served following which the bridal couple left for Del Monte. Mr. Buell is the head of the G. A. Buell Co. of San Francisco and his bride is clever and intelligent. Their engagement announcement was unique.

Fulfilling a party of friends for a launch ride down the river, she presented each with a card to the effect that she was about to ship as mate on the matrimonial cruise. The cards were artistically embellished by Miss Felt and the whole affair

was both novel and quaint.

Mr. and Mrs. Buell will reside in San Francisco. Both are Christian Scientists. The bride's father is the leader and healer of that belief in this city.
